

Week ending 15th May 2009.

In Nursery the topic for this term is water for life and growth. This week children had the opportunity to explore bubbles in the garden, and in Blue Room they could bath their baby dolls, dress them and take them to the baby clinic, which has been created near the home corner.

Children took this responsibility very seriously!

First babies need a bath, then they have nappies on

and clothes, then they go to the clinic.

Bubbles in the garden.

Little Harts children learnt how to squirt paint out of pots and make patterns on paper.

Remember to point it at the paper!

Baby Massage.

In the Family Room Lianne runs baby massage classes for parents with babies from 5 weeks to 5 months. She uses this doll to demonstrate how to massage babies properly.

Massage helps babies to sleep and is very good for their general wellbeing. If you know anyone who might like to come to Baby Massage please see Lianne or call her on 01582 731701.
